

The Green Paper on Online Gambling

Dear Sir / Madam,

I would like to make you aware of right2bet and their aim for all EU citizens to have the right to choose which European online betting provider they use, irrespective of which Member State they operate from.

I wish to bring to your attention the following:

- I want the right to use the Internet to bet online across borders of all EU Member States.
- I want the right to use websites of EU licensed online gambling operators that give me more fun, better odds and better games.
- I do not want to have to go outside the EU to use sites which may be unlicensed and whose origins I know nothing about.
- I want you to back firm action against governments of EU Member States that will still not allow me (and other citizens of the EU) to exercise this freedom.
- I want to know that responsible gambling will be encouraged. I want to know that my children cannot access these sites.
- I want to bet safely. I want to keep my full consumer rights; I want my winnings when I win; I want to know who is behind these companies.
- I want to know that I am not aiding international fraud or money laundering.
- I want you to take action to remove the existing barriers to EU consumers exercising their rights to purchase online services across EU Member States borders.

Thank You.
